

Student Surveys

Nobody knows what's going on at school better than the kids. You can learn which students:

- ✓ Have barriers that make learning difficult.
- ✓ Are worried about their transition to middle or high school.
- ✓ Aren't connected to other kids.
- ✓ Don't feel they have an adult they can talk to when they need help.
- ✓ Don't feel safe at school.

With School Perceptions, you can...

Analyze every survey item and identify all students who need help.

Put your data in context by comparing your results with similar schools.

Easily quantify your progress over time with longitudinal reports.
